What is the Arbor student portal?

This is a new system to help keep you up to date with what is happening in school and it will detail all your home learning activities.

The portal will show/allow you:

- what events you have coming up
- your timetable
- your attendance
- which home learning assignments you've been given
- to submit completed assignments (optional – can still hand in your assignments directly to teacher)
- to view some of your assignment marks and feedback

How do I access it? Click, copy and paste or type this link into a web browser - https://st-martins-school.uk.arbor.sc/ You will need your school email address (year you were enrolled, first letter of your first name and then your surname (just like your log in) @stm.318education.co.uk and then you set your password for the portal. There is no app for the student portal so you can only access it on a web browser but obviously this can be done on computers or tablets. You can also access via your phone web browser but just be aware some feature might not show clearly (Arbor are working to make the portal fully mobile friendly)

The student portal works well alongside the parent portal which can also be accessed via the Arbor App. (Parents and guardians have been sent access an email to access these)

Arbor have made a video for you to watch which shows you how to log in and the key features of the portal: https://www.youtube.com/watch?v=QN6j66N6N94
