

Dear to whom it may

Unfortunately, due to COVID 19 and our updated risk assessment we are unable to run the annual College taster event. This is due to the number of students usually accommodated, the mixing of different secondary settings, and the cross-session mixing, with different students accessing different tasters throughout the day.

I apologise for this, but we have tried to ensure we act based on the most up to date Government advice and we feel with 3.5 weeks to go the advice will not change sufficiently to allow the event to run safely.

We will be offering bespoke taster videos for each vocational area; these will be circulated this term.

We will also be offering, virtual IAG events and limited capacity, pre-bookable, on campus, COVID safe, open events.

Please can you circulate this information to students as we will send this to you in advance of each event.

In addition, any students or parents who wish to request an individual tour or have specific questions please ask them to email - info@nsc.ac.uk.

Kind regards
Beverly Jackson
Head of Student Services
