

ST MARTINS SCHOOL

11 June 2021

We have had a couple of positive lateral flow/PCR covid tests over the half term holiday . As some of the students had not returned to school we have only needed to send a small number of year 10's home to self isolate. However it does show that the virus is still very much with us, please keep doing the lateral flow tests and report any positive result to me sue.lovecy@stmartins3-16.org day or night. Obviously any child who has symptoms needs to be kept at home until they receive a negative test .

In school we have been enjoying the great outdoors this week. Our Reception class had a great time in the forest school area where they created fires and made smores. If you don't know what a smore is a campfire treat from America, consisting of one or more toasted marshmallows and a layer of chocolate placed between two pieces of biscuit or cracker—they look delicious! Have a go making some this weekend on the BBQ!

Some great action shots of year 2 enjoying their recent sports day. Just a reminder for next week please send primary students into school with a sun hat and apply sun cream before school.

Have a lovely weekend, Ms Lovecy
