

Dear parents/carers,

For our CID project this half term, Year 1 will be making a map from their own house to a place they love visiting. We looked at map making last term and had a go at using compasses too.

Your map might lead us to the park, to Granny's house, to Stans or even further afield! You can make them out of any material. They could be on paper or even a chalk drawing on the patio. You may cut things out to stick on, paint it or record yourself describing it. It can be as colourful as you like too!

I wonder if you can include:

- A compass (N,E,S,W)
- A key
- Place names with capital letters
- A title

Have fun!

Miss Sayers
