

Year 5 Spring Term 2022 (1)

Task: Research a famous Volcano and create a model.

Pick a famous volcano to research. Think about:

Where it is in the world?

How old it is?

When did it last erupt?

Is it an active volcano?

What are the benefits and negatives to volcanos?

Next step:

Create a model of the volcano out of anything you like e.g. clay, cardboard, lego.

Think about all of the different layers of a volcano and how you could show these. You could look at Margaret Godfrey's artwork for inspiration.
